

COVID-19 TEST RESULT

- What does this mean?

Protect your family and friends

NEGATIVE:	POSITIVE:	UNCLEAR, VOID, BORDERLINE OR INCONCLUSIVE:
<p>This means the test did not find coronavirus. You do not need to self-isolate if your test is negative, as long as:</p>	<p>This means you had coronavirus when the test was done. If your test result is positive, you must self-isolate immediately.</p>	<p>This means it's not possible to say if you had coronavirus when the test was done.</p>
<p> everyone you live with who has symptoms tests negative</p>	<p> If you had a test because you had symptoms, self-isolate for at least 10 days from when your symptoms started.</p>	<p> If you had a test because you had symptoms, you must keep self-isolating and have another test within 8 days of your symptoms starting</p>
<p> everyone in your support bubble who has symptoms tests negative</p>	<p> If you had a test but have not had symptoms, self-isolate for 10 days from when you had the test.</p>	<p> If you're not able to have another test in time, you must self-isolate for at least 10 days from when your symptoms started. Anyone you live with, and anyone in your support bubble, must self-isolate for 14 days.</p>
<p> you were not told to self-isolate for 14 days by NHS Test and Trace</p>		<p> If you had a test but have not had any symptoms, you do not need to self-isolate while you wait to get another test. People you live with, and anyone in your support bubble, do not need to self-isolate.</p>
<p> you have not travelled to the UK from a place with a high coronavirus risk</p>		
<p> you feel well – if you feel unwell, stay at home until you're feeling better</p>
