Tuesday 8th March 2022

Dear Parent/Carer

We have been asked to provide you with the information below by the Government.

Children aged 5 to 11 years who are in a clinical risk group or who live with someone who is immunosuppressed can get the COVID-19 vaccine, in line with advice set out by the Joint Committee on Vaccination and Immunisation (JCVI). Eligible children include those with diabetes, immunosuppression, learning disabilities, and other conditions as outlined by the UK Health Security Agency (UKHSA) in the Green Book.

Vaccinations help to increase protection against COVID-19, which is particularly important for those with underlying health conditions.

Further information is available in the guide for parents of children aged 5 to 11 years published by UKHSA. We have published some frequently asked questions on the vaccination programme including information on eligibility, accessibility and advice for parents of children at high risk from COVID-19. Following advice from the JCVI, healthy 5 to 11 year old children will also be offered two 10 microgram doses of the COVID-19 vaccine. The NHS will prepare to extend this non-urgent offer to all children during April.

If you have any questions please contact your G.P.

Kind Regards

Mrs Haynes
