

Coomb Briggs Primary School Science Focus Week

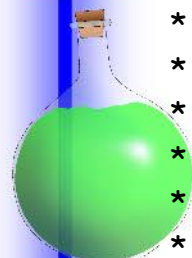

Friday 10th March - Friday 17th March 2017

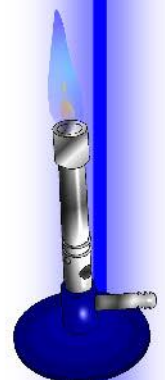

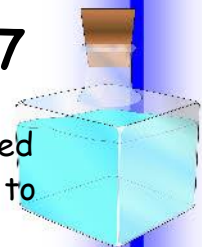

Due to the success of 'Science Focus Week' last year, we have listened to our pupils ideas and created an action packed timetable of events to make this year's 'Science Focus Week' the best yet!

We want to keep an element of surprise for the week, but here is a snippet of what can be expected:

- * Guest visit from 'Lab Rascals'
- * Crime Scene investigative work
- * Party preparations
- * Year 5 and 6 becoming teachers for the day
- * ICT with science
- * Environmental work

If children would like to embrace the theme for our crime scene work on Monday 13th March, they may come to school dressed up as a crime scene investigator, a police officer, forensic officer, a scientist or a detective.

View our website during the week, to see what fun activities we have been conducting!

Mrs Smith
Science Co-ordinator
