

Coomb Briggs Primary School Science Focus Week

Monday 12th March - Friday 16th March 2018

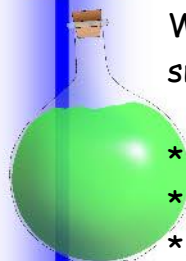

Dear Parents/Carers,

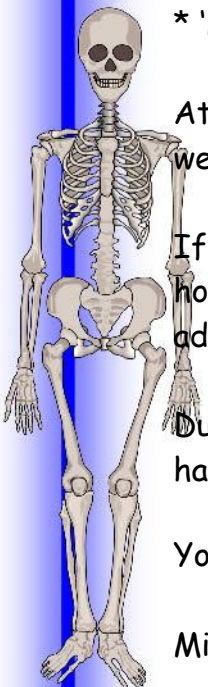

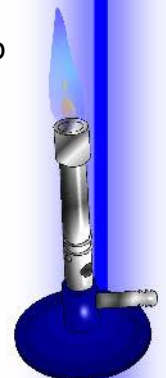

Due to the success of 'Science Focus Week' last year, we have listened to our pupils' ideas and created an action packed timetable of events to make this year's 'Science Focus Week' the best yet!

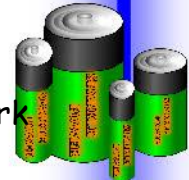

We want to keep an element of surprise for the week, but here is a snippet of what can be expected:

- * Guest visit from 'Tropical Inc'
- * Science quiz
- * Science being taught through stories
- * 'Health and Nutrition' day

At the end of the week, we will have an assembly to celebrate the work we have done.

If you wish to carry out any experiments or any science based work at home, bring in a photograph to show what you have done and it can be added to our display!

During the week, please visit the school website to see what activities we have been doing!

Yours faithfully,

Miss Nicholson
