20th January 2017

Dear Parents/Carers

I have been approached with regards parents helping their children with Maths homework in Year 5/6 due to the changes in the curriculum. After a little thought, I could offer a session before the end of school, on a Thursday. This would allow you to see the new workbooks and weekly assessment sheets we use. In addition to this, if anybody felt a need to go over current methods in order to help with homework we could go over these too.

Initially I will hold an overview session on Thursday 2nd February at 2.30 p.m. in the ICT Suite to look at expectations in Year 5/6. If it is felt that weekly sessions would be beneficial, we will look at strategies for completing homework tasks. However, I understand this will not be for everybody but for those interested it may be welcomed.

Finally so we can gauge numbers I would be grateful if those interested would sign the slip over the page and return it to school before Friday 27th January. Likewise, if you have any comments please add these, it could be you are interested but the time is not convenient.

I look forward to your replies.

Mr. S. Bell

Deputy Headteacher
